

WEBINAR ANNOUNCEMENT

California Institute for Mental Health presents

Community Defined Practices for Ethnic Populations Webinar Series
Native American Focus – Sacramento Native American Health Center

Evidence and Culturally – Specific Practice

Presenters: Esther Lucero, PhD, Carlos Rivera and Gayle Zepeda
Facilitator: Barbara Aragon, MSW

Wednesday, March 19, 2014 | 10:00 AM – 12:00 PM (PST)

Register here: <https://www1.gotomeeting.com/register/372453953>

GoToWebinar (Logon link will be supplied after registration)

Webinar Description:

This webinar will focus on the dilemma in native communities of funding requirements that necessitate Evidence Based Practice (EBP) programs and the growing move towards community defined wellness practices. These programs are based on cultural strengths and practice. Specific curricula will be presented.

Learning Objectives:

1. Participants will receive an overview of the dialogue in the Native American Community regarding the designation of Evidence Based Practice (EBP).
2. Participants will receive an overview of the concept and community-driven movement towards Community-defined Practice (CDP).
3. Participants will receive an overview of two examples of CDP being used in community settings with positive results: White Bison/Wellbriety, and the Gathering of Native American prevention (GONA) curriculum.

Target Audience for Training:

Directors, managers, first-line staff working in community mental health facilities and agencies, Mental Health Community at large including but not limited to - therapist, counselors, social workers, case managers, psychiatrist, drug and alcohol counselors as well as, community activist/advocates, CDC members, and program providers to the Native American community.

WEBINAR SERIES ANNOUNCEMENT

California Institute for Mental Health presents

Community Defined Practices for Ethnic Populations Native American Focus

Presenters: Sacramento Native American Health Center

Lost in Translation: Telling Our Story

Wednesday, February 19, 2014 | 10:00 AM – 12:00 PM (PST)

This initial webinar will set the foundation for a three-part series that presents an overview of the current health status and demographics of Native Americans in California, with an introduction to salient behavior health issues and their linkage to historical and current factors.

Register here: <https://www1.gotomeeting.com/register/126993393>

Reclaiming our Strengths, Reclaiming our Practices

Wednesday, March 5, 2014 | 10:00 AM – 12:00 PM (PST)

This second webinar will provide a clinician's perspective on historical trauma and how the enduring factors of violence, substance abuse and suicide are impacting communities today. Trauma informed approaches that use culture, tradition and revival of ceremony are presented as effective Community Based Practice.

Webinar Description:

This webinar will provide a clinician's perspective on historical trauma and how the enduring factors of violence, substance abuse and suicide are impacting communities today. Trauma informed approaches that use culture, tradition and revival of ceremony are presented as effective Community Based Practice.

Learning Objectives:

1. Participants will receive an overview of the behavioral health issues facing Native Americans in California.
2. Participants will gain understanding of the relationship between historical factors (i.e. loss and unresolved grief) and the current behavioral health disparities among Native Americans.
3. Participants will be presented with information regarding the revival of cultural ceremony as an example of a culturally appropriate prevention and healing approach.

Target Audience for Training:

Directors, managers, first-line staff working in community mental health facilities and agencies, Mental Health Community at large including but not limited to - therapist, counselors, social workers, case managers, psychiatrist, drug and alcohol counselors as well as, community activist/advocates, CDC members, and program providers to the Native American community.
